## The AUVRAY tamper-proof label

We stick the tamper-proof label on the bike and its box

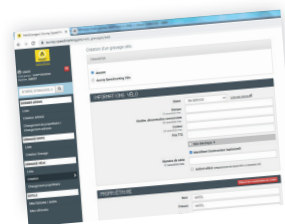

A ready to use solution, simple, fast and free (We pay the labels in advance). The bike is marked at the source with ICABike tamper-proof labels from the french company AUVRAY. You will only have to finalize the registration procedure of the customer, you can even charge this service 15,90€ (PVC) for less than 5 min of time.

All you have to do is scan the label

Go to the AUVRAY portal and register your customer using the label code on the box.  
OR  
Scan the QR code on the bike with an optical reader, it will send you directly to the AUVRAY website to register your customer.

And register the customer on the portal

Load the form on the bike tab. Fill the bike's characteristics and then fill your customer's details. Validate the registration request and AUVRAY register the elements on the national bike file (FNUCI). The registration certificate is sent directly to your customer by email.
