Les vérins sont d'une grande force (90kg de poussée).

Lors de la première utilisation, lorsque le sommier est en position ouverte, il faut 2 personnes de chaque côté au pied du lit. Appuyez fortement sur le sommier, sans à-coups, afin d'actionner les vérins pour la première fois.

Il y a 2 petites tiges de tension de chaque côté du lit au niveau des vérins. Ces tiges peuvent légèrement se déformer lorsque vous commencez à forcer, puis les vérins vont s'actionner normalement.

A l'utilisation ces étapes se feront plus facilement.
